

SELF CONTAINED COMPACTORS

KS35 Series

“When you need the best design and durability, turn to KSC for top-quality self contained compactors.”

The KeeService Company KS35 Series of self contained compactors brings together the features every hauler needs in one of the best compactors in the industry. Its well engineered design, reliability and unique features make it a favorite with end-users as well. The largest clear-top chamber in the industry-41 x 68 inches means almost 20 square feet of load chamber to accommodate even the bulkiest trash. Its easy loading 46-1/2 inch loading height makes ground-level loading a snap. The KS35 features liquid retention to the 46 inch height level and one-piece construction between the packer head and the container insures no leaks. The full rear door neoprene seal doesn't require replacement as often as other self contained units thanks to the adjustable cast iron door hinges and our unique locking system that continues to provide a positive seal.

Model	Total	A	B	C	D	E	F	G	H	Weight
KS20	20.0 cu. yd.	46.5"	71.5"	117"	102"	189"	101.5"	68"	41"	10,035 lbs.
